

The fourth column is skewed – it should look like this

Exp. Last Load	CDR Step	CDR Month	ODS Step	ODS Month
Dec 31, 2008	Init	200812	Init	200812

But there's a big space for the date.

It looks to me like it has the space of the raw data from Oracle, i.e.

Dec 31, 2008 13:14:33 AM

even though I format the date in the sql like this: to_char(s1.mth_last_load_dt,'Mon dd, yyyy')

Subject Area	Source	Freq.	Exp. Last File	CDR Step	CDR Month	ODS Step	ODS Month
